

Natural Lighting

Let the sun shine, without the heat.
Natural lighting brings together natural sunlight and advanced engineering, to brighten your space in the most efficient way.

How it works

CAPTURE ZONE

Raybender 3000® Technology

- Patented daylight-capturing dome lens
- Redirects low-angle sunlight
- Rejects overpowering summer midday sunlight
- Consistent lighting throughout the day

Light Tracker™ Reflector

- Patented in-dome reflector
- Redirects low-angle winter sunlight
- Increases light input for increased light output

TRANSFER ZONE

- Spectralight Infinity Tubing
- 99.7% spectral reflectivity
- Pure colour rendition
- Transfers sunlight up to 9m

DELIVERY ZONE

- Dual Lens Array Technology
- The Diffuser Lens controls the light diffusion within the room
- The Effect Lens adjusts the light and offers choices to soften or warm the light colour

Benefits

- Reduce energy use
- Less hassle and more efficient than traditional skylights
- Blocks UV transmission
- Transfers light not heat with a 100% UV filter
- Enhance architectural design
- Leak-proof design
- Designed for visual comfort

WARRANTY

Up to
10 years
