

Solar Thermodynamic Systems

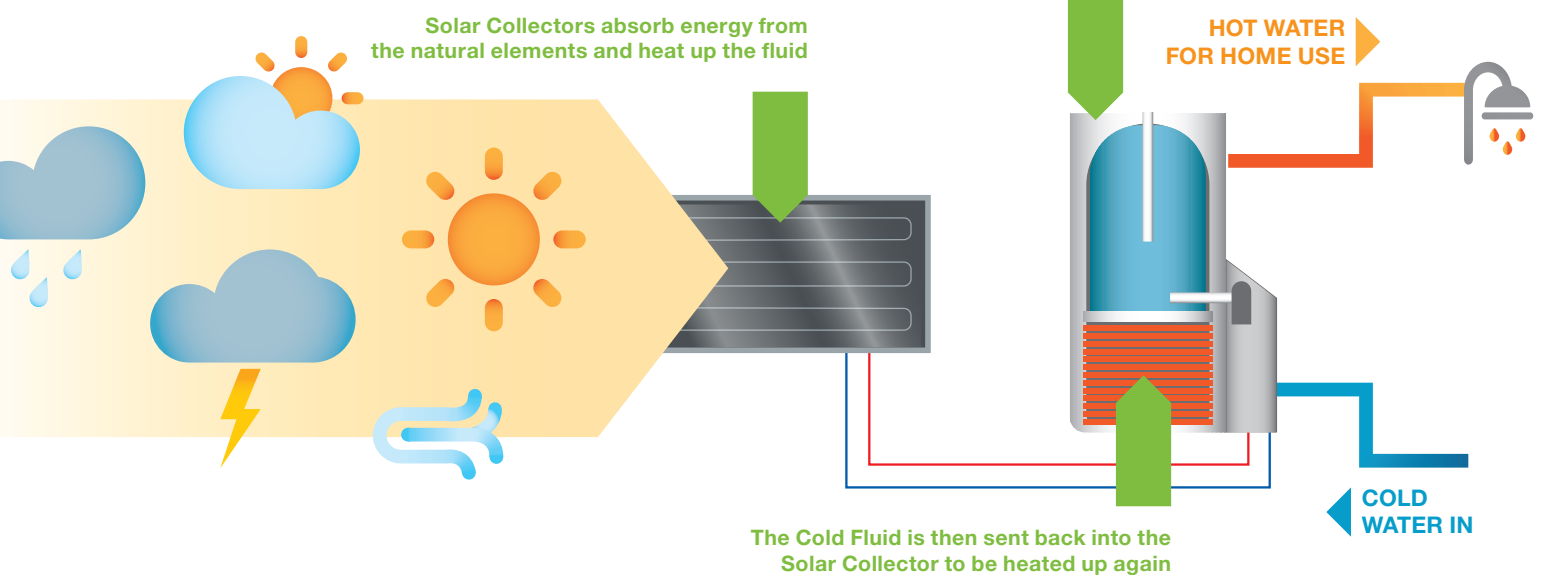

Night or day. Rain or shine.
Hot water guaranteed, everyday up to 65°C!

Benefits

- **Highly Efficient Panels.**
Converts up to 80% of the Sun Energy into Heat Energy
- **Low Maintenance**
- **Thermal Performance Guaranteed**
- **The solar collector is light, versatile and leaves no visual impact**
- **The collector does not lose its efficiency with time or with dirt**
- **Save up to 80% on your energy bill**
- **The solar collector works efficiently day and night, all year round - even in the absence of sun**
- **Hot water available 24/7**
- **High resistance in saline environment**
- **High resistance to humidity**
- **No defrost cycle**
- **No glass, rubber or fragile materials**
- **No risk of over heating**
- **No need for roof space**
- **No need to clean**
